## EDUCATION

Lehigh University

Bethlehem, PA

**Bachelor of Science in Business and Economics** – Major: Business Information Systems | Minor: Fintech

## WORK EXPERIENCE

*Technology and Automation Consultant, Crowe LLP, New York City, NY*

September 2025 – Present

- **Stablecoin Advisory:** Consulted a correspondent bank on cybersecurity, operational, and reputational strategy for stablecoin initiative, advising on technical stack selection and architecting a comprehensive risk profile to ensure regulatory (GENIUS Act) and operational compliance.
- **Practice Development:** Built an AI-powered intelligence hub that tracks digital asset conferences, surfaces clients active in crypto, and generates outreach intelligence —replacing manual research and messy data
- **Product & UI/UX:** Led the end-to-end design and development of a ticketing and third-party risk management platform in PowerApps, collaborating with GRC and technical teams to align product requirements with institutional client needs.
- **Scalable Infrastructure:** Architected a scalable SQL database system to manage granular, multi-tenant security permissions and access control for enterprise product offerings.
- **AI Product Engineering:** Developed and deployed an invoice automation for SAP systems; fine-tuned document AI models to 97% accuracy, and served as the primary liaison between engineering and business stakeholders

*Consulting - Product Engineering Intern, Crowe LLP, New York City, NY*

June 2024 – August 2024

- Trained an internal AI to clean and map 16,000+ risks to controls, and implemented AI-integrated risk management solutions, enhancing the capabilities of the Crowe Risk Curator
- Contributed risks and controls to facilitate the creation of a robust governance, risk, and compliance content library, including cannabis and ADA regulations, leading to an 8% increase in risk and control coverage
- Spearheaded the development of a risk content management tool using Microsoft PowerApps, establishing a connection to a SQL database to enhance the risk assessment capabilities of risk management teams
- Identified and recommended AI-driven strategies to streamline business processes, effectively reducing operational time and costs across all internal teams by focusing on a shift to agile and cross-functional workflows

*Data Governance Intern, Allegis Group, Hanover, MD*

June 2023 – August 2023

- Researched data using Informatica EDC and LeanIX to create mappings and data lineage visualisations for a PeopleSoft to Snowflake migration project
- Led the purging of 1600+ data attributes, resulting in streamlined information systems and enhanced data security

*FinTech Capstone - Stablecoin Integration for Google*

January 2025 – May 2025

- Co-authored a 40+ page report and presented to Google management, analyzing stablecoin integration into payment processing systems
- Conducted comparative analysis of stablecoin networks (USDC, USDT, Solana, Ethereum) versus legacy rails (SWIFT, ACH, FedWire), quantifying 90–95% transaction cost savings and reducing settlement times from days to near-instant
- Assessed regulatory, technical, and operational challenges to deliver implementation roadmaps addressing scalability (Layer 2 Rollups), privacy (zero-knowledge proofs), and refund mechanisms to mitigate operational challenges; evaluated regularly frameworks (EU MiCa U.S. STABLE & GENIUS Acts, Asia-Pacific regimes) to assess compliance pathways for global deployment

## Leadership Experience

*President, Business Info Systems Club, Bethlehem, PA*

August 2022 — May 2025

- Organized events, including tutoring, recruiter visitations, and alumni panels for business info systems (BIS) and business analytics (BUAN) majors at Lehigh University

*Head of Programming Staff, Lehigh Hillel, Bethlehem, PA*

August 2022 — May 2025

- Assist 20+ students per semester to pursue activities including Birthright and Learning fellowships.
- Facilitate Jewish Student Life programs through partnerships with local businesses

## TECHNICAL SKILLS or LANGUAGE PROFICIENCY

**Technical Skills:** React, Node.js, Python, SQL, Solidity, Foundry, Java, Web3, RStudio, Azure, PowerApps, PowerAutomate, PowerBI, Access | **Languages:** Russian (Fluent)
